Education

Undergraduate Student, Department of Computer Science and Engineering
College of Engineering, Seoul National University

Skills

Programming Languages Python, C, C++, Java

Design Tools Figma, Procreate, PowerPoint, Final Cut

Interests UI/UX Design, Human-Computer Interaction,
Visual Design, Creative Technology

Experience

Director of Design, NOVA, 38th Student Council of the Department of Computer Science and Engineering, Seoul National University

- Lead the visual design and production of promotional materials for student council activities.
- Design digital graphics and visual assets for announcements, events, and department-wide communication.
- Coordinate the overall design direction of the council's public-facing materials.

Design Staff, FLOW, 37th Student Council of the Department of Computer Science and Engineering, Seoul National University

- Participated in the production of visual materials for student council projects and events.
- Contributed to communication design for department-level activities

Design Team Lead, ComSee 2025 Organizing Committee

- Planned and produced design materials for event promotion and communication.

Projects & Activities

NOVA Logo Design

- Designed the visual identity of NOVA, inspired by the Latin word for “new” and the brilliance of a supernova.
- Created a geometric logo based on the structural forms of the letters N, O, V, and A.
- Developed both light and dark versions of the logo for flexible use across different backgrounds.

NOVA Promotional Design Works

- Produced promotional graphics and visual assets for student council activities.
- Focused on clear visual communication, consistency, and intuitive presentation.
